

The Portable Performer . . .

Electric Automatic Scrubber

The ES2000 is truly unique. Sectionally designed for portability, this machine may be disassembled into four easy to handle units which fit into the trunk of most cars.

Pullman Holt Electric Scrubbers are comfortable to operate at a fast or slow pace and can be held stationary for removal of stubborn stains. Ideal for cleaning aisles, auditoriums, factories, gyms, etc. Conversion kits are available for dry pick-up and buffing. The ES2000 thoroughly cleans and dries up to 16,000 sq. ft. per hour.

scrubber features . . .

Solution and Recovery Tanks

Molded polyethylene non-corroding, seamless tanks, translucent so liquid levels are always visible.

Double Blade Squeegee

Swings to machine's track, leaving the floor clean and dry without streaking.

Instrument Panel

Conveniently located at operator's fingertips and clearly labeled.

Automatic Shut-Off

Prevents recovery tank from overflowing and damaging the motor.

Gearbox

Precision, planetary type is smooth running, with hardened gears and shaft.

75 Ft. Cord

Allows operator to clean a large floor area without changing outlets.

Corner Guide Wheels

Non-marring to protect walls and furniture.

Drain Hose

Self contained. Permits draining of tank without lifting, tipping, and pouring.

Front Support Legs

Swing down to lift front of machine, for simple brush or pad changing.
