

PULLMAN-HOLT

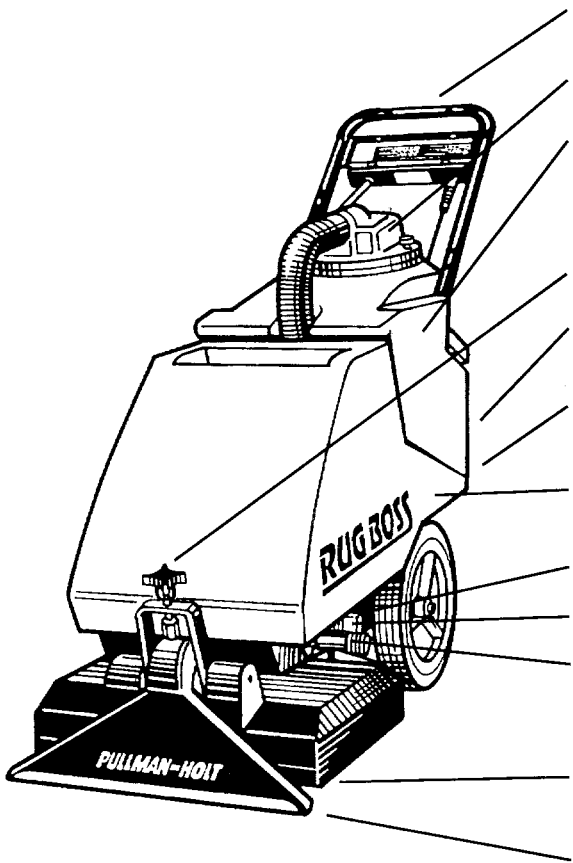

Models SC400 & SC600

Pullman/Holt self-contained extractors are designed to excel when challenged by the toughest carpet cleaning tasks. In one pass, the operator sprays, scrubs, and extracts quickly and effectively. Completely self-contained, extractors eliminate the need for external solution lines, vacuum hoses and separate wands. A dump valve on the recovery tank allows easy draining into a bucket. For cleaning stairs and hard to reach areas, a full complement of accessories are available. Choose from the SC400 with 16" cleaning width and 7 gallon tank capacity or the SC600 with 18" cleaning width and 10 gallon tank capacity.

- 1 Year warranty on pump and motor.

Model SC600

Model SC400

Unique Folding Handle (SC400)

Allows for easy storage and transport.

Injection-Molded Sight Dome

Rotational-Molded Polyethylene Solution and Recovery Tanks
