## How to use Gloss Boss Cleaning Solutions

### Gloss Boss Carpet and Rug Cleaning Solution

Vacuum carpet thoroughly to remove as much loose soil as possible.

#### To Remove Spots and Stains:

- Set spray nozzle to the “Stream Position” and apply directly to stain.
- Using the twin nylon brushes, agitate the spot or stain until it is removed.
- No rinsing or extraction required. Allow carpet to dry before vacuuming.

#### To Clean High Traffic Zone and Large Areas:

- Attach felt discs to the twin nylon brushes using the plastic retaining clips.
- Snap the retaining clip through the center of the felt disc onto the shaft in the center of the brush.
- Slip the green carpet bonnet over the felt disc.
- Set spray nozzle to the “Spray Position” and lightly mist area to be cleaned
- Move the machine slowly across the misted area to clean and lift soil on to pads.
- Rinse carpet bonnets as needed.
- Do Not vacuum or walk on carpet until completely dry.

**Gloss Boss Carpet and Rug Cleaning Solution will continue to remove stains and soils each time you vacuum. Refer to product instruction manual for additional directions for use.**

### Gloss Boss Hard Surface Cleaner

Vacuum or sweep thoroughly to remove as much loose soil as possible.

#### To clean Hard Floor Surfaces:

- Place Microfiber cleaning pads onto floor.
- Align brushes with cleaning pads.
- Set spray nozzle to the “Spray Position” Lightly mist the section to be cleaned.
- Move the machine slowly across the misted area to clean and lift soil on to pads.
- When one side of the pad becomes dirty, flip over and use the opposite side. Pads can be rinsed clean when necessary.
- Floor should dry completely before allowing traffic.

## with the Gloss Boss All Purpose Floor Machine

### Gloss Boss Tile and Grout Cleaner

Vacuum or sweep thoroughly to remove as much loose soil as possible.

#### To clean grout:

- Set spray nozzle to the “Stream Position” and apply to grout lines.
- Scrub the grout with the Gloss Boss Buffer Scrubber using the nylon brushes.

#### To clean tile:

- Place Micro Fiber cleaning pads onto floor.
- Align brushes with cleaning pads.
- Change setting on trigger sprayer from “Stream” to “Spray”.
- Lightly mist the section to be cleaned with Gloss Boss Tile and Grout Cleaner.
- Move the machine slowly across the misted area to clean and lift soil on to pads. When one side of the pad becomes dirty, flip over and use the opposite side. Pads can be rinsed clean when necessary.
- Floor should dry completely before allowing traffic.

### Gloss Boss Citrus Cleaner Degreaser Concentrate

#### To clean patio, garage and other concrete floors:

- Vacuum or sweep thoroughly to remove as much loose dust, soil and debris as possible.
- In a large bucket mix 8oz of Gloss Boss Citrus Cleaner Degreaser per/gal of warm or cold water.
- Liberally apply the solution to the surface of the garage floor with a traditional mop.
- Keep floor wet for 3-5 minutes. *Reminder: floor may be slippery when wet.*
- Scrub solution with the Gloss Boss Buffer Scrubber using the nylon brushes. Pick up solution with a mop or wet vacuum. Rinse and allow floor to dry completely.
